Summer Resorts.

We notice in many of our exchanges recommendations of various fashionable and popular resorts; but for us, we think the more sequestered places the more desirable, when comfort. health, and pleasure are sought.

The visits of invalids to the places of luxury, excitement, and dissipation, to which they are usually attracted, are, mostly, absurdly pernicious, and we doubt that the sanitary influence of the waters of any of the medicinal springs can in many instances atone for the incidental enervating influences of these places.

A cool, healthy, and salubrious air, a pleasing land cape or water view, shady groves, simple and appropriate diet, good bathing accommodations airy chambers, the congenial companionship of a few, freedom from restraint, and a cheerful tranquillity, are desirable and profitable to all well-disposed persons in the sultry summer months; and they can be enjoyed better in thousands of places, of convenient access to all, than in any of the famous and popular and over-populous "watering places" to which the fashionable and their imitators so unwisely flock, and where they often, at large expense, submit to scant and unwholesome fare, and other inconveniences. never witnessed in their own homes; and yet which they all bear like lambs, because they are in the crowd they fled from home to escape!

The Disappointed.

The very great delight manifested by the several "shelved" aspirants for the Democratic nomination has excited the admiration of the whole universe and sundry other good people. Some have thought it insincere, but we all know how uncharitable the world is.

The following is from the North American of yesterday:

"We learn from a friend in Lancaster that, on Saturday evening, a Locofoco ratification-or what was intended to be a ratification-meeting was held at that place, at which Mr. Buchanan was to have spoken, but refused to attend. Col. Frazer, the leader of the anti-Buchanan faction, was called for, and took the stand: but when he commenced speaking, a general uproar ensuedhalf the meeting opposing, the other half supporting him in vain. The anti-Buchananites shouted "Put him out"-"Down with him"-"Turn him out"-"Benedict Arnold"-with other elegant phrases of objurgation; and these were intermingled with hisses and all sorts of interruptions. The greatest confusion prevailed for some time; and at length, apprehensions of a riot being entertained, several of the gas-lights were extinguished and the room partially cleared. Finally the sheriff was sent for, and, he having succeeded in restoring order, Col. Frazer resumed his speech, and the meeting went on as usual. The Colonel was delighted that Buchanan had been shelved, and he proceeded to eulogize Gen. Pierce. Our informant says that there was no enthusiasm manifested in favor of the candidates, and considers that Pierce is a dead weight among the Democracy of that region."

Bars in the Mississippi.

We notice in the Southern papers much satisfaction expressed at the passage of a law directing the Secretary of War to take the necessary steps for causing a ship channel, of sufficient depth to accommodate the wants of commerce, and allow vessels of twenty feet draught to pass through it, to into the Mississippi river out of the Gulf of Mexico, and appropriating \$75,000 for the purpose. If our friends in the South, or elsewhere, intend to elect General Pierce to the Presidency, it is important to have all matters of this kind promptly attended to; for during his administration, should they succeed in electing him, they can have nothing of the kind to hope for. He is committed against all such national objects of improvement as this.

We are informed by the Baltimore American that the committee appointed at the recent meeting of the free colored population of that city, held in St. James African Episcopal Church, for the purpose of calling a convention of delegates from the free colored population of the State, have issued an address to the free colored people of the State, explaining the object for which the meeting was held, and earnestly impressing upon them the importance of appointing delegates to represent them in the convention to be held in that city on the 25th of July next, for the purcountry, and contrasting them with the inducements and prospects opened to them in Liberia, or any other country."

A gentleman in Lowell, Mass., lately sprinkled some cowage over the petals of a peony which stood near his garden fence, as a trap for persons who had often taken the liberty of helping themselves to flowers as they were passing. The bait took-a gentleman and lady were shortly after noticed most vigorously rubbing their noses, and doubtless wondering "how come they so." On the principle that the hair of the same dog will cure the bite, it may be supposed that the itch caused by the cowage effectually cured the itch for stealing flowers.

We perceive that Mrs. Clarke Gaines has given notice that she is about to commence proceedings in the probate court of New Orleans for the recovery of the estate of her father, the late Daniel Clarke, under the devise made by him in 1813, instituting her as his legitimate and only daughter-his universal devisee; and warning all persons from purchasing any portions of the said estate, or from acquiring titles under the present holders or purchasers.

The Land of Gold.

By the last arrival from California, we received through the politeness of Mr. E. S. Smith, of Adams & Co.'s Express) a copy of the San Francisco Prices Current of the 15th ultimo. From it we quote the following remarks on financial matters:

" Among the importations by the Tennessee, we notice \$100,000 in American gold coin, received by Messrs. Adams & Co., direct from the Mint at Philadelphia. Although comparatively a small sum, it will still be of some assistance, if circulated in this community, in relieving us from the annoyance of having no small coin—which want, however, is gradually being supplied.

' Mexican dollars and sovereigns are becoming scarcer every day, in consequence of the de-

mand for foreign shipment.
"English shillings and franc pieces are becoming much too plenty among us, passing as they do for twenty-five cents each—which fact induces their importation. We know of several lots of francs imported here, and many more ordered. It is time the bankers took this matter in hand, and refused to receive small silver coins at rates so much above their value; and we have no doubt the business men generally would co-ope rate in remedying the evil.

"There are large tracts of mining country which must now soon cease to be worked for want of water, and remain untouched until the winter rains set in; and there are many portions of this country which cannot be worked at all to any extent, until supplied with water by artificial means. This has already been done to some extent, and larger works are in progess. The plan is to go high up on some never-failing tream, and, by means of a ditch along the side ills, and an aqueduct of boards over the low places, carry the water to any required distance. t has been suggested that Artesian wells could be made to answer a good purpose, but no one as yet has tried the experiment. The miners of 1848 used a sheath knife and pan; those of 1849 a cradle; those of 1850 a long tom; and now the same dirt will pay for sluicing, which is at pres-ent the most approved method of washing. "Worship the Lord."-Mr. Clay. The following extract is taken from the sermon of the Rev. Theodore Clapp, of New Orleans, on Worship. It derives additional interest from the extreme illness under which Mr. Clay is suffer-

"The mail lately brought us the melancholy intelligence that the Hon. Henry Clay is about to sink into the grave. The last winter of his residence here, in the family of Dr. Mercer, in a private interview, I had the pleasure of listening to his sentiments on the most interesting of all subjects, religion. He said: 'I believe in the truth of Christianity, though I am not certain of having experienced that change of heart which divines call the new birth. But I trust in God and Jesus, and hope for immortality. I have not for years retired at night without prayer for the blessing of Heaven; and that, in His infinite mercy, he would be pleased to prepare me for the joys of another world. I have tried the world and found its emptiness. cannot fill and satisfy the human mind. My dear sir, how utterly disconsolate should we be without something better beyond the grave!' Instructive spectacle! Here is a man, prosperous and powerful, great in genius and achievements, whom the whole nation had fairly idolized for nearly half a century-whose name has oceans and reached the utmost floated across boundaries of the civilized world-who solemnly assures us that all terrestrial glories to him appear less than nothing in comparison with a hope in the mercy which Jesus Christ has re-

Gen. Pierce and the Nobility.

A correspondent of the New York Express writes as follows to the editors of that paper:

"In the extract which you quote from the be opened across the most convenient pass leading Boston Journal, representing Gen. Pierce to be one of 'the nobility,' the editor states that the Democratic candidate for the Presidency is 'a lineal descendant of the family of Percys and the Duke of Northumberland, the title being now ex-

This will be news to General Pierce's "noble cousins," who are thus put to death and made

"extinct." There is a gentleman of some note now sitting in the House of Lords whose name is Algernon Percy, and who wears the title and honors of a duke. He is styled the " Duke of Northumber-He is sixty years of age, hale and hearty. He is immensely rich, and if "British gold," to which Locofoco oratory is always fervid in imputing Whig victories, will help a Democratic candidate, the duke certainly can give his cousin Franklin a lift. He has plenty of palaces to live in, among which are the famed Alnwick Castle and Keilder Castle; also, Northumberland House in London, Stanwick Park in Yorkshire, Sion House in Middlesex, and Warrington Park in

Now, the Democratic candidate has not only all this amount of rich relationship, but, as he is a "lineal descendant of the Duke of Northumber land," he may boast of the most-distinguished pose of "taking into serious consideration their the Presidency. In the chapel of the family at present condition and future prospects in this Aluwick Castle, is emblazoned in letters of gold the whole line of pedigree, distinctly tracing it back from the present duke, father and son, to the Emperor Charlemagne. When President Pierce, therefore, mounts the Presidential chair, we shall have to rule over us a lineal descendant of the Emperor Charlemagne! Three cheers for the Democracy!

An "Aristocratic Whig."

A writer in the Detroit Advertiser, who was for twenty years a stock farmer, says sheep can be protected from dogs by pasturing them with fat cattle or milch cows. The cattle invariably attack the dogs, and thus save the sheep.

Affairs in Georgetown.

Georgetown, June 16-12 m.

Fatal and Painful Accident .- A young German, by the name of Philip Mace, a cabinet-maker by trade, went into Rock creek last night to bathe at a point known as the Catting Rock, and was drowned. Coroner Woodward held an inquest over the body: verdict, "Accidental drowning." The loss of this young man is the more to be regretted from the fact that he was in the regular habit of sending considerable sums of money, which he saved out of his earnings, to a poor mother in Germany. I was told this morning by one of our citizens that over two hundred persons have been drowned at this point within his recollection. [The figure is large.]

Two Men Missing.

Those of our readers who have been in the habit of perusing the truthful, liberal, and patriotic letters of "Ion" and "X," in the columns of the Baltimore Sun, will be pained to learn that at a late hour last night no tidings had been heard of either of them, and that the Sun bewails their absence this morning in terms of deepest grief. "Whether or not," the Sun says, "their epistles got astray on the way, or they were themselves, amidst the political excitement of the day, too agitated to write, we have no means of determining at this moment. But that the light that they would otherwise have shed upon the murky aspect of affairs will be greatly missed from our columns this morning, we do not doubt."

OF THE RIGHTS OF THE PEOPLE

In the third week of June, 1852, will be commenced, in the city of Washington, a Weekly

Campaign Newspaper, under the above title. It will be devoted to the maintenance of genuine republican principles as avowed and practised by the great WHIG PARTY of the United States; to the preservation of the NATIONAL Union, and of the Rights of the States and the RIGHTS OF THE PEOPLE under that Union; and in an especial manner to the election of GENERAL WINFIELD SCOTT, as the nominee of the Whig National Convention, to the Presidency of this Republic.

It will be the agreeable duty of the editor to dwell and to descant upon the merits of a man around whose brow are entwined the laurels gathered on many a victorious field. During the long period of forty years his talents, his valor, and his humanity have nobly illustrated his country's honor; and the patriotic masses, the toiling millions of our widely-extended country, will, on the seventh of November next, arise in their power and majesty to bestow their suffrages upon their honored fellow-citizen-the hero, the patriot, and sage—and to proclaim THE GRATITUDE OF A REPUBLIC!

TERMS:

THE RIGHTS OF THE PEOPLE will be published once a week-from the third week of June until the third week of November-at fifty cents.

Postmasters and others acting as voluntary agents, who may send five or more names, are authorized to reserve twenty-five per cent. for their trouble, or the advantage of this deduction may be shared by all the members of a club; and for each ten subscribers, on these terms, an eleventh copy will be also sent.

. The notes of all specie-paying banks, gold, silver, and letter-stamps, will be received in payment. Address.
